Rehabilitation eTOC bulletin for April 2017

Brain injury
Disability and rehabilitation
Clinical rehabilitation
Journal of rehabilitation medicine
American journal of physical medicine & rehabilitation
International Journal of Rehabilitation Research
Journal of Rehabilitation
Neurorehabilitation and neural repair
Archives of Physical Medicine and Rehabilitation

Each journal has different full text access, see key to asterisks.

Brain injury *** (Published monthly)

Current issue: Volume 31 (3) Table of Contents here

Latest articles published online first:

  Brain contusion as the main risk factor of memory or emotional complaints in chronic complicated mild traumatic brain injury

  Effects of hemoglobin level on the early postsurgical cerebral metabolism in patients with severe to traumatic brain injury

  Additive effects of sequential excitatory and inhibitory theta burst stimulation in improving cortical excitability following ischaemic stroke

  Facial emotion recognition in patients with focal and diffuse axonal injury

  Long-term cognitive and neuroanatomical stability in patients with anoxic amnesia: A Case Report
Persons with brain injury and employment supports: Long-term employment outcomes and use of community-based services

Disability and rehabilitation *** (Published fortnightly)

Current issue: Volume 39 (9), (10), (11) Table of Contents here

Articles published online first:

Sex after amputation: the relationships between sexual functioning, body image, mood and anxiety in persons with a lower limb amputation

The impact of multiple sclerosis on the identity of mothers in Italy

Exploring change in a group-based psychological intervention for multiple sclerosis patients

Emotional freedom techniques (EFT) as a practice for supporting chronic disease healthcare: a practitioners’ perspective

The effects of multimodal rehabilitation on pain-related sickness absence – an observational study

Instead of popping pills, perhaps you should add frog breathing’: experiences of glossopharyngeal insufflation/breathing for people with cervical spinal cord injury

A new equation based on the 6-min walking test to predict VO2peak in women with obesity

Clinical rehabilitation **** (Published monthly)

Current issue: Volume 31 (4) Table of Contents: here

Articles published online first:

Long-term follow-up of a randomized controlled trial on additional core stability exercises training for improving dynamic sitting balance and trunk control in stroke patients

Comparative effectiveness of botulinum toxin versus non-surgical treatments for treating lateral epicondylitis: a systematic review and meta-analysis

An investigation of the psychometric properties of the Chinese (Cantonese) version of Subjective Index of Physical and Social Outcome (SIPSO)

Early interventions to promote work participation in people with regional musculoskeletal pain: A systematic review and meta-analysis
Effectiveness of neuromuscular electrical stimulation for management of shoulder subluxation post-stroke: A systematic review with meta-analysis

**Journal of rehabilitation medicine** * (Published monthly)

Current issue: Volume 49 (4) Table of contents [here](#)

Editor’s choice in this issue:

Long-term outcome after reperfusion-treated stroke

**American journal of physical medicine & rehabilitation** *** (Published monthly)

Current issue: Volume 96 (4) Table of contents [here](#)

Articles published online first:

Interventional Spine Considerations for Dural Ectasia in a Patient With Marfan Syndrome

Hypercapnia Caused by a Therapeutic Dosage of Pregabalin in a Tetraplegic Patient With Cervical Spinal Cord Injury

Chest Pain From Hypermobility Responding to Physical Therapy in an Adolescent

**International journal of rehabilitation research** *** (Published quarterly)

Current issue: Volume 40 (1) [here](#)

Articles published online first:

Reliability and validity study of a Turkish version of the fatigue severity scale in Parkinson’s disease patients

**Journal of rehabilitation** * (Published quarterly)

Current issue: Volume 34 (4) October – December 2016 [here](#)

**Neurorehabilitation and neural repair** **** (Published monthly)
Articles published online first:

Large-Scale Phase Synchrony Reflects Clinical Status After Stroke

A Short and Distinct Time Window for Recovery of Arm Motor Control Early After Stroke Revealed With a Global Measure of Trajectory Kinematics

SCIPA Switch-On A Randomized Controlled Trial Investigating the Efficacy and Safety of Functional Electrical Stimulation–Assisted Cycling and Passive Cycling Initiated Early After Traumatic Spinal Cord Injury

Long-term Outcome After Survival of a Cardiac Arrest

The Impact of Shoulder Abduction Loading on Volitional Hand Opening and Grasping in Chronic Hemiparetic Stroke

Archives of physical medicine and rehabilitation *** (Published monthly)

Articles published online first:

Modifiable Psychosocial Constructs Associated with Physical Activity Participation in People with Multiple Sclerosis: A Systematic Review and Meta-Analysis

Anticipatory Postural Adjustment During Self-Initiated, Cued and Compensatory Stepping in Healthy Elderly and Patients with Parkinson's Disease

Psychometric and Clinimetric Properties of the Melbourne Assessment 2 in Children with Cerebral Palsy

Land Plus Aquatic Therapy Versus Land-Based Rehabilitation Alone for the Treatment of Balance Dysfunction in Parkinson’s Disease: A Randomized, Controlled Study with 6-Month Follow-Up

Deliberately Light Interpersonal Contact Affects the Control of Head Stability During Walking in Children and Adolescents with Cerebral Palsy

Short-Term Effects of Thoracic Spine Manipulation on Shoulder Impingement Syndrome – A Randomized Controlled Trial

Intensive early rehabilitation in the Intensive Care Unit for liver transplant recipients: a randomised controlled trial

Dynamic balance training improves physical function in individuals with knee osteoarthritis: a pilot randomized controlled trial
Validity of the instrumented push and release test to quantify postural responses in persons with multiple sclerosis

Association Between Manual Loading and Newly Developed Carpal Tunnel Syndrome in Subjects with Physical Disabilities: a Follow-up Study

Subjective Caregiver Burden and Caregiver Satisfaction: The role of Partner Relationship Quality and Reciprocity

Using a Real Time Location System for Assessment of Patient Ambulation in a Hospital Setting

Arm-cranking Exercise Training Reduces Plasminogen Activator Inhibitor 1 in People with Spinal Cord Injury

The Effectiveness of Active Cycling in Subacute Stroke Rehabilitation: a Randomized Controlled Trial

Randomized Trial of a Peer-Led, Telephone-based Empowerment Intervention for Persons with Chronic Spinal Cord Injury Improves Health Self-Management

“Effects of exergames on quality of life, pain and disease impact in women with Fibromyalgia: A randomized controlled trial”

Validation and refinement of prediction models to estimate exercise capacity in cancer survivors using the Steep Ramp Test

Increased Seat Dump Angle in a Manual Wheelchair is Associated with Changes in Thoracolumbar Lordosis and Scapular Kinematics during Propulsion

Feasibility and safety of a powered exoskeleton for assisted walking for persons with multiple sclerosis: a single-group preliminary study

“Resistance training for muscle weakness in multiple sclerosis: direct versus contralateral approach in individuals with ankle dorsiflexors’ disparity in strength.”

Participation restriction in people with multiple sclerosis: prevalence and correlations with cognitive, walking, balance and upper limb impairments

Less Exercise and More Drugs: How a Low Income Population Manages Chronic Pain

Dancing for Parkinson’s: a randomized trial of Irish set dancing compared to usual care

Effects of peer mentoring on self-efficacy and hospital readmission following inpatient rehabilitation of individuals with spinal cord injury: a randomized controlled trial
Key to full text access

* free full text access with Athens or open access
** full text journal available in print at either Bassetlaw and DRI libraries, articles can be scanned and e-mailed to you upon request.
***Journal’s own website allows some free full text access to selected articles, see **** for other articles
**** No access to current issue in full text with Athens, but the Knowledge and Library Service can acquire full text copies of any article. Please contact the library at either Doncaster or Bassetlaw for more details or use this link to download a request form. (See below for contact details)
